SCORING MODEL

Formula: $\text{TECH} \times 0.43 + \text{FUND} \times 0.30 + \text{RISK_INV} \times 0.20 + \text{SENT} \times 0.07$ (risk inverted: $100 - \text{raw_risk}$). BUY threshold ≥ 60 , WATCH 45–59, SKIP < 45 . Gates (time/volume/regime) suppress alerts only — all ≥ 45 scores are logged.

Note: This report was generated using reference data. Live reports on Railway use real-time yfinance + FintHub data and pull from the Supabase signal_log table.
